MEMORANDUM

TO : TSS/Burial Section
FROM :
SUBJECT: Evaluation of RSK Equipment

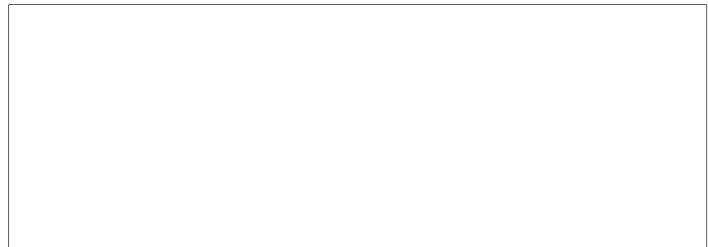

25X1

1. The evaluations by of the three RSK transmitters were conducted from the point of view of the "operator". We found no apparent nor symptomatic defects in tuning the equipment. There were little or no visual indications of corrosion or weathering. However, we want to point out that we are not in a position to give precise or exact evaluations because we have no idea of the condition of the equipment prior to burial.

25X1

2. If further information or service is desired, please call on us.
